## TRinity Attenuating Crash Cushion

09/02

### WIDETRACC™

TRinity Attenuating Crash Cushion

Newest Addition to Trinity's Life Saving Highway Safety Systems.

NCHRP Report 350, Test Level 3

For Permanent or Temporary (Work Zone) Applications.

Accepted by FHWA  
September 5, 2002

### The WIDETRACC™ Offers Specifiers, Installers and Users All These Advantages:

- Easy to install and inspect.
- Easy to repair in the field or yard.
- Available in symmetric or asymmetric configurations.
- Available with wing extensions that make it as wide as you need it without reduced performance capabilities.
- Basic unit ships complete; No field assembly.
- Installs on new or existing concrete or asphalt pad.
- Easy to move for work zone use.
- Open design; Familiar galvanized steel components.
- Training seminars available.
